

Locheer Health Management Limited

Locheer Health Management Limited (LHM) was established since 1999. She was founded to devote to the business of organizing and managing medical service providers in Hong Kong. She was formed by a term of professional consultants of medical services and insurance. With their expertise, LHM aimed to serve the community in a way of people's health –care life style. Cheermate Network was her flagship product. Cheermate had over 300 medical outlets and over 20,000 Cheermate card members. Cheermate aimed to provide a low cost and discounted medical fee services to general public in Hong Kong. In 2003, LHM also took charge the management of the innovative Locheer Healthcare Centre which was a first cyber and round the clock operating private healthcare building in Hong Kong.
